## ABOUT ME

I am a TV/film editor highly fluent in AVID Media Composer. I bring over 17 years of experience in all areas of documentary and reality, including competition, food, sports, true crime, restoration, medical, music, nature and feature documentary as well as editing multiple sizzle reels and pilots. I enjoy working in a collaborative environment, but I have experience as a producer/editor, and am very comfortable making creative decisions on my own. As well as editing I am also a multi-instrumentalist, composer and music producer with multiple credits on projects on and off screen.
